Dear Members,

IACT is pleased to continue its series of corporate treasurer roundtable meetings in Dublin.

These roundtable meetings are opportunities for corporate treasurers to have an open discussion under Chatham House rules and have generally been attended by 10-12 corporates. The format of the presentations has been to have a corporate treasurer presenting on a topic(s) of his/her choice as a means of initiating discussion and sharing of best practice among peers.

With this initiative the IACT hopes to further promote treasury best practice among our corporate members.

Please note that that this event is exclusively for corporate treasury practitioners.
